

SUSTAINABLE PROTEIN CONSORTIUM

PROTEINMB PROCESSOR CONSORTIUM

OVERVIEW

The Protein Processor Consortium is a collaborative network of protein processing companies that meet regularly to discuss challenges, share opportunities, and leverage collective expertise.

The Consortium is facilitated and supported by a seasoned ProteinMB Facilitator to address operational issues, enhance profitability, and drive business growth. The ProteinMB facilitator will manage and coordinate the meetings, ensuring productive and impactful sessions with input from the group.

PURPOSE

To foster sustainable growth for companies by connecting them with a network of industry peers for monthly learning and sharing sessions, enabling them to achieve and maintain improved business performance and outcomes.

TARGET AUDIENCE:

Operational leadership of protein processors and manufacturers

CONSORTIUM DETAILS

The ideal size of the group is between 8 and 12 companies with a primary contact from each company.

Benefits of a Consortium

- Work ON your business vs IN your business
- Share best practices including tours
- Grow an industry network with “outside eyes” to help you in your role
- Solve problems and identify opportunities
- Receive expert facilitation by ProteinMB
- Access to information, intelligence, and industry updates (including workshops / events)
- Stay in the know on technology, skills development, productivity, business development, safety, environment, etc.
- Increase awareness of and connection to possible funding opportunities
- Collaborate on topics that require advocacy to government, academia, etc.
